IT TRANSFORMATION PROJECT
January 2019

PROJECT UPDATE
The IT Transformation Project keeps moving forward in this new calendar year. The holiday season was filled with progress as more college units, computer labs, and grad student computers were moved to OCIO services. Faculty and staff now submit tickets through the OCIO Self Service site, allowing OCIO and CFAES IT teams to communicate via one system behind-the-scenes. For regular project updates, go to https://it.osu.edu/cfaes.

Onboarding to OCIO Services

Onboarding Survey Results

Members of 11 units have moved to OCIO services and were given the opportunity to provide feedback about their experience.

Thinking about the overall process of receiving new IT services, how would you rate your experience?

- Extremely positive: 58.3%
- Moderately positive: 33.3%
- Slightly positive: 8.3%
- Neither positive nor negative: 0.0%
- Slightly negative: 0.0%
- Moderately negative: 0.0%
- Extremely negative: 0.0%

What did you think about the communications you received throughout the onboarding process?

- Extremely effective: 25.0%
- Very effective: 58.3%
- Moderately effective: 16.7%
- Slightly effective: 0.0%
- Not effective at all: 0.0%

Overall, how satisfied or dissatisfied were you with your onboarding experience?

- Extremely satisfied: 33.3%
- Very satisfied: 66.7%
- Slightly satisfied: 0.0%
- Neither satisfied nor dissatisfied: 0.0%
- Slightly dissatisfied: 0.0%
- Very dissatisfied: 0.0%
- Extremely dissatisfied: 0.0%

Likelihood to recommend managed IT services from the OCIO to other university colleges/departments

- 10 - Extremely likely: 27.3%
- 9: 27.3%
- 8: 18.2%
- 7: 18.2%
- 6: 0.0%
- 5: 0.0%
- 4: 0.0%
- 3: 0.0%
- 2: 0.0%
- 1: 0.0%
- 0 - Not at all likely: 0.0%

Net Promoter Score

CFAES IT Team Progress

The new CFAES IT team is working on a variety of projects including research and application support. These are some of the highlights from December.

Research Support:

- Food, Agricultural and Biological Engineering: Configured a computer to be able to connect to a TGA Q50, a device that acquires the thermal decomposition of materials, and a TGA Q20, a differential scanning calorimetry device
- Animal Sciences: Implemented the backup computer for their feed system when the primary computer stopped working
- Animal Sciences: Fixed a remote desktop issue so they could connect to the MCIC bioinformatics environment

Application Services:

- Assisting OARDC Directors Office and graduate students to coordinate carpooling between the Columbus and Wooster campuses
- Worked with Digital Flagship team to deploy iPads to incoming students at ATI
- In collaboration with the Research Computing team, developing a variety of platforms to support researchers in need of high-performance computing using AWS and the Ohio Supercomputer Center
- Made modifications and supported the CFAES Research Competitive Grants Program for this year’s SEEDS grant proposals
THIS MONTH’S COMMON QUESTIONS

Q: I noticed that the CFAES Help Desk website changed. How do I put in a ticket now?

A: Correct. The CFAES Help Desk website (ithelpdesk.cfaes.ohiostate.edu) now redirects to the OCIO Self Service Site at go.osu.edu/IT.

On the OCIO Self Service site, you can get help with any IT issues by submitting a ticket or ordering services that you need. To get started, log in to the site using the button on the right side of your screen.

Submit a Ticket

If you are having IT issues and need assistance, you can click the large red “Need some help?” button that appears on the dashboard after you have logged in. You will see various categories to select from to report your issue. If your issue does not fall under one of those categories, just select “Other” and provide details about your request. You can also select “Get Help” from the menu on the left side of the screen and select to submit a ticket. A list of categories will appear to select from, including CFAES specific items. Click the following link to view a brief training module on how to submit a ticket: Submitting a Ticket.

Order Services

If you need to order a service, click the Order Services button in the menu on the left side. You can select from a wide range of service options. Common requests like event support, loaner devices, file share, and print share appear under the Client Computer Services menu. Click the following link to view a brief training module on how to order services: Ordering Services.

Q: What do I do if I have an urgent request and it’s outside of normal business hours?

A: You can now call 614-514-IT4U (4848) 24/7 to speak to someone immediately who can route your request appropriately. If it is after normal business hours, your call will be answered by IT Service Desk staff who can assist with many core and common issues directly over the phone. They can also escalate more specialized, unique, or complex issues to one of the on-site support staff for follow up and resolution.
