IT TRANSFORMATION PROJECT
April 2019

PROJECT UPDATE

On the Columbus, Wooster, and State-wide campuses, a total of nine units were moved to OCIO services in March. The Research Services and Application Support teams are working collaboratively with each other and the IT services teams on various campus locations to address faculty research needs as a team. Visit the IT Transformation Project website for regular project updates.

CFAES IT Team Progress

The new CFAES IT team is working on a variety of projects including research and application support. These are some of the highlights from March.

Research Support:

- Entomology: Working on ARC GIS (archive) data recovery platform.
- FABE: Assisted in fixing an issue where the LIDAR system wasn’t connecting.
- Grace Drake Ag Lab: Set up a network-based Sensaphone
- MCIC: Replaced battery cells in Franek commercial UPS. Will help address other customer needs for adequate power backups for analytical lab equipment.
- Working with Wooster IT services team on e-waste and asset management, disposal, and data destruction.
- Assisting Application Services with retrieval of lab systems status for exception processing and updates.

Application Services:

- ATI: Working with OCIO, migrated Hawk’s Nest golf course to new point-of-sale system.
- FABE: In cooperation with Research Computing team, helped graduate student set up a deep learning workstation on AWS using RStudio Server on EC2 to analyze environmental effect of introducing rain gardens to an urban setting.
- HCS: New digital signage system on Wooster Campus.
- MCIC: With OCIO Enterprise Security, completed risk assessment for Thermo Fisher Connect to manage SeqStudio and data files online.
- SENR: New digital signage system on Wooster Campus.
- TechSmith Relay: In coordination with OCIO, upgraded server and client software.
- Set up system to schedule some AWS servers to run only during business hours to reduce costs.
