IT TRANSFORMATION PROJECT
May 2019

PROJECT UPDATE
As another semester comes to an end, the majority of business units on the Columbus campus have been moved to OCIO services. Progress continues on the Wooster and state-wide campuses with ATI migrations nearly completed and Wi-Fi implementation completed in 38 state-wide locations. Visit the IT Transformation Project website for regular project updates.

CFAES IT Team Progress

The new CFAES IT team is working on a variety of projects including research and application support. These are some of the highlights from April.

Research Support:

- FAHRP: Upgraded a research computer to Windows 10 to get it on the network
- HCS: Assisted in getting a new computer connected to a data logger
- HCS: Moved a computer and data logger to a working growth chamber
- Plant Pathology: Installed Linux Bash on user’s computer

Application Services:

- ATI: Worked with OCIO to install network connectivity from Seed greenhouse environmental control panel to PC and installed Seed Sphere software to enable logging and remote engagement
- ATI: Provided extra iPads and supported iPad workshop taught by Valerie Childress
- FABE: Installed and secured Linux on tablet PC for use in precision agriculture project
- HCS: With research support, helped repair failed growth chamber to support research project
- HCS: Provided inventory report of botanical print images to be archived in library due to construction projects in Howlett Hall
